Geetika

Geetika is a very hardworking, determined, and talented girl who comes from a humble family background. In May 2016, she got sponsored by CFCA/Unbound while she was studying in school. Since then, the support from the organization has helped her continue her education and follow her dreams with confidence.

Geetika lives with her parents, four sisters, and one brother. Her mother is a homemaker who takes care of the household, while her father works as an ironer and is the only breadwinner of the family. Despite limited income and many responsibilities, her parents work tirelessly to provide a better future for their children. Their sacrifices and hard work became Geetika's biggest motivation.

Geetika has always been sincere and focused in her studies. She scored an impressive 83% in her 10th standard examinations, which made her family proud. For her higher studies, she chose the Science stream with PCB subjects — Physics, Chemistry, and Biology. Along with academics, she always gave her best in every activity she participated in.
